

EDUCATION AND SCHOLASTIC ACHIEVEMENTS					
Program		Institute		Percentile / CGPA	Year
B.Tech Naval Architecture and Ocean Engineering		Indian Institute of Technology, Madras		8.39	2028
Class XII (GSEB ¹)		B.H. Rathod Sec. and Higher Sec. School, Rajkot		89.18	2024
Class X (GSEB)		Shree Murlidhar High School, Rajkot		99.88	2022
• Qualified Joint Entrance Examination (JEE) Advanced 2024, ranked in the top 6.5% among 180k+ candidates, demonstrating elite academic excellence					
• Scored 99.29 percentile in Joint Entrance Examination (JEE) Mains, placing in the top 0.71% nationwide among more than 14+ lakh aspirants across India					
PROFESSIONAL EXPERIENCE					
Business & Marketing lead SPEAGLE , IITM NIRMAAN (August'25-Jan'26)		Led business and marketing operation for SPEAGLE – Driving market validation, budgeting and strategic market positioning			
		• Earned incubation from IITM Nirmaan’s Pratham Cohort, advancing through highly competitive multistage evaluation process • Contributed to development & go-to market strategy of cost-optimized drone entertainment venture targeting lower prices			
Voice & Localization Contributor REAP ³ platform (August'25-Present)		Prestigious National e-learning initiative powered by IIT Madras with support from NABARD ⁴ and National Academy of RUDSETI ⁵ • Worked on multilingual dubbing, script adaptation and localization for e-learning content for diverse rural learners across India • Contributed both manual & AI-assisted dubbing workflows including voice adaption for large-scale rural education initiatives			
COURSEWORK AND SKILLS					
Coursework	Ship Resistance and Propulsion		Marine Engineering		Basic Electrical Circuits and Instruments
	Ship Drawing and Calculations		Ship Hydrodynamics		Innovative Entrepreneur - 1 Customer Discovery
	Ship Hydrostatics and Stability		Structural mechanics		Introduction to Naval Architecture
	Ocean Wave Hydrodynamics		Thermodynamics		Analysis of structure
Languages	C, C++, Python, Arduino Programming		Libraries	Python, Pandas, NumPy, Matplotlib	
Tools	Git, GitHub, Microsoft office, AutoCAD, Canva, Davinci, Adobe Premier Pro, Photoshop				
SELF PROJECTS					
A* Graph Network Visualizer		• Developed interactive “ A* ” Pathfinding Visualizer using Py-game with real-time grid rendering and obstacle-based navigation • Implemented heuristic-driven shortest path computation using Priority Queue , Manhattan Distance and neighbor exploration • Engineered visual simulation system featuring live node transitions, path reconstruction and user-controlled grid manipulation			
Bit-Stream Data Compressor		• Achieved up to 50% reduction in file size by implementing the Huffman coding algorithm in C++ for optimized data compression • Ensured perfect encoding & decoding accuracy by implementing efficient tree-based character frequency mapping structure • Enhanced compression efficiency by optimizing priority queue operations and memory usage for the large-scale text inputs			
COURSE PROJECTS					
Ship Drawing and Calculations OE2013		Developed MATLAB computational framework to process ship offset table data and perform hydrostatic stability calculations			
		• Implemented numerical integration algorithms to compute righting arm values across heel angles using geometric hull data • Created an automated GZ–theta (righting arm vs heel angle) plotting and visualization pipeline for ship stability assessment • Applied AI-assisted logic design and verification to optimize MATLAB code, reduce errors and accelerate engineering analysis			
Startup Feasibility & Market Strategy ID4101		Conducted TAM⁹/SAM¹⁰/SOM¹¹ competitive analysis for two startups across women's safety tech & urban micromobility sectors			
		• Developed GTM ¹² strategy covering user personas, DMU ¹³ mapping and beachhead market identification using 24-step DEF ¹⁴ • Built financial models with sensitivity analysis across pricing, revenue projections & unit economics for B2C ¹⁵ and B2B ¹⁶ channels • Sized serviceable markets at ₹312 Cr and ₹67 Cr through bottom-up segmentation across geography, profile & adoption intent			
Hardware Instrumentation and Sensor Data Acquisition OE2015		Designed Circuit Architectures Programmed Arduino microcontrollers to interface with LM35 thermal sensors for real-time data			
		• Engineered a data Acquisition framework using NIDAQ ¹⁷ and multi-axis accelerometers to capture the continuous tilt dynamics • Developed MATLAB pipeline processed live sensor feeds, Enhanced sampling frequencies to automate graphical visual analytics • Integrated Hardware Prototype Combined physical circuits with analytical software to translate schematics in functional system			
POSITIONS OF RESPONSIBILITY					
O&IP ²⁰	Coordinator Shaastra’ 26 (Sep’25 - March’26)	Coordinated seamlessly with 10+ teams to manage 100+ events, optimizing the schedules and all the requirements efficiently			
		• Led a 40+ volunteer team, ensuring smooth event management and efficient crowd management for a massive 70k+ footfall • Managed dynamic scheduling sheets & optimized resource allocation , aligning diverse team needs with logistical feasibilities			
GGS ²¹	Head (August’24- Ongoing)	Spearheaded organization of the institute's flagship cultural celebrations, driving end-to-end event strategy & management			
		• Led a 20+ member team and managed full event budgets for two years at IIT Madras, managing logistics and execution • Oversaw planning and execution of cultural festivities, ensuring a seamless & engaging experience for footfall of 1k+ at IITM			
Content Creator, IITMTV (June’25 – May’26)		• Contributed to the direction and production of Freshers Vox-Rox, which became IITMTV’s most views launch within 24 hours • Worked alongside team to deliver 5+ brand-centric videos, supporting channel’s growth to 7.8M+ views and 40k+ subscribers			
TA - Life Skills Course (Feb’26 – May’26)		• Managed administrative tasks, monitored student progress and grading of reflective assignments and student presentations • Served as a relatable peer mentor, helping students actively about important life lessons and apply them to their daily lives			
Volunteering		• Mentored & guided 4 freshmen as Saathi Mentor , providing consistent academic assistance & helping them adjust to campus			
SPORTS					
Weightlifting		• Representing the institute as a probable member of the IIT Madras Weightlifting Team for the upcoming Inter-IIT Sports Meet • Selected to be a part of the competitive 25-member weightlifting NSO²² Contingent at IIT Madras from the aspiring members • Served as the Team Captain for the Brahmaputra-Hostel Weightlifting Team at the Dean’s Trophy, securing 3rd place (U-60)			
Others		• Represented Mandakini-Hostel in multiple sports competition including Frisbee and the Cycle Race at the Dean’s Trophy 2025
