

EDUCATION & SCHOLASTIC ACHIEVEMENTS				
PROGRAM	STREAM	INSTITUTION	CGPA/%	Year of Completion
B. Tech	Civil Engineering	Indian Institute of Technology Madras	9.05/10	2027
Class XII + XI	TS State Board	Pragati Junior College, Hyderabad	98.3%	2022
Class X	SSC ¹	Sri Vani High School, Tadipatri	97.2%	2020
- Secured top 4.83% rank in JEE Advanced 2023 (21L+ applicants) conducted by IIT Guwahati & 99.19 percentile in JEE Mains (11L+ applicants) - Achieved top international, zonal ranks in UIEO (English Olympiad, AIR 2777) & NSO (Science Olympiad, AIR 2802, Zonal 233) at Class 9: 2018 - Awarded Reliance Foundation UG Scholarship 2023 (Top 5% of 1Lakh+ applicants) for exceptional performance in a national aptitude test - Solved 230+ DSA problems - 100+ on LeetCode, 140+ on GeeksforGeeks by using C++, showcasing strong problem-solving across all levels				
COURSE WORK				
Courses	Probability, Statistics & Stochastic Process		Programming in Python	Advanced Learning Algorithms*
	Machine Learning Specialisation*		Series and Matrices	Data Structures and Algorithms*
Skills	Programming: C, C++, JS, HTML, CSS, MySQL		Libraries: TensorFlow, Keras, RegEx, Scikit-learn, NLTK, FinBERT, HuggingFace	
	Tools: Git, GitHub, EDA, Excel, Canva, MS Word		Data Handling: NumPy, Pandas, Matplotlib, Seaborn, Selenium, BeautifulSoup	
PROFESSIONAL EXPERIENCE				
Real-Time Congestion Alerts* Chennai Traffic Police Prof. Lelitha Devi	- Replaced web scraping with Google API, to automate monitoring 500+ routes, triggering SMTP² alerts on congestion - Reduced redundant API requests by 66% by analysing 30-day (60K entries) traffic data using Matplotlib, & Seaborn - Implementing OpenCV and YOLOv8 to analyse live CCTV feeds and identify high-density traffic zones in real time - Applying LSTM, RF³ on historical congestion data to predict hourly traffic hotspots, boosting forecasting accuracy			
Business Dev Intern* SpaceTug	- Conducted market & competitor analysis in the space debris sector & provided a technical differentiation report - Benchmarked SpaceTug's advanced Yazhi satellite (7-DoF³ robotic arm) against top Indian competitor Dhruva space			
PROJECTS				
Driver Distraction Classifier <i>Mar'25 – May'25</i>	- Built image classification pipeline with live image input using CNN; tested via confusion matrix and class report - Trained MobileNetV2 on 15.6K images for 10 driver behaviors c0-c9; hit 92% accuracy, 91.2% F1 on 3.4K test image - Boosted accuracy from ~84% to 91%+ over 30 epochs using dropout (0.5), early stopping (patience=5) and Adam - Deployed trained driver distraction classifier (92% test acc.) as a Streamlit web app for real-time image predictions			
Credit Card Approval Forecasting <i>Sep'24 – Oct'24</i>	- Engineered target labels from 2.9M+ credit records and logs using SQL-style merges and filtering logic in Pandas - Designed preprocessing via Column Transformer; Ordinal, OHE⁴, MinMax uplifted runtime by ~35% vs manual setup - Trained 5+ ML models (RF, SVM⁵, XGB⁶) via sklearn pipelines; Calibrated RF hit 95.2% accuracy & 92.6% ROC-AUC⁷ - Used SMOTE⁸ and Yellowbrick/scikit-plot for class balance & ROC, confusion matrix, calibration curve visualisation			
Loan Risk Clustering <i>Jan'25</i>	- Clustered 1L+ loan data via KMeans (Silhouette:0.63), Hierarchical (0.60) to uncover risk-based borrower segments - Built efficient preprocessing flow via Z-score outlier filtering, balanced sampling on 30K subset with Pandas, SciPy⁹ - Interpreted clustering results using matplotlib, PyCaret, visualizing using PCA, t-SNE¹⁰ to predict loan default risk			
VBA²⁶ Reporting Automation <i>Nov'24</i>	Automated weekly reports using VBA/macros, with logics, dynamic formulas cleanup; reduced report time by 80% - Cleaning and sorting using logic statements, reducing manual effort & saving 2+hours weekly & improving accuracy - Built a reusable VBA tool for report generation with automated formatting, KPI²⁵ summaries and structured output			
YouTube Feedback Mining <i>Feb'25</i>	- Built sentiment analysis pipeline on 5k+ YouTube comments using VADER¹³, Text2Emotion, LDA¹⁴ for insight mining - Engineered end-to-end NLP¹⁶ workflow (Pandas, NLTK¹⁵, Gensim) for sentiment, & emotion tagging, topic modelling - Deployed 3 enriched datasets using Streamlit dashboard, enabling interactive exploration of trends and insights.			
COMPETITIONS				
A2B Sweets Marketing Case By Samanvay, DoMs ¹⁸ , IITM	- Campus Finalist (Top 10), outperforming 1000+ teams in a strategy competition for A2B's e-commerce consulting. - Conducted market research & competitor benchmarking with SWOT and TAM-SAM analyses in ₹4000Cr market. - Proposed B2B wholesale model, 30% SEO¹⁹ improvement, and UGC¹⁷ campaigns targeting 2x online engagement			
Strategic Finance League , E-Cell ²³ , IITM	- Ranked 8th among 500+ participants in Stocks Are High, a premier stock trading simulation at the E-Summit 2025. - Practised trend reversal prediction, capital use with ₹5.2L virtual funds, using swing trading, risk control strategies.			
Merchants of Stock 3.0 By BVPINC, Delhi	- Achieved a Top 10 national rank in Merchants of Stock 3.0, a trading competition hosted by BVPINC²⁴ New Delhi - Leveraged 52-week low, & day low indicators to execute successful multiday trading strategies in stock simulation			
POSITIONS OF RESPONSIBILITY				
Shastra	Finance Head <i>May'25-Present</i>	- Entrusted with financial leadership, overseeing ₹2Cr fund with a 35-member team for allocations and monitoring - Solely responsible for supervising ₹40L on DAM²⁰ and Shows, Exhibitions, streamlining costs for enhanced impact		
	Coordinator <i>May'24-May'25</i>	- Boosted merchandise revenue 87% (to ₹4.5L+) via early bird & combos; set 15% revenue growth for Shastra'25 - Engaged 50+ reliable suppliers and trained 20 volunteers in negotiation, pitch, bill payments and negotiation skills		
Placement Cell	Coordinator <i>May'25-Present</i>	- Authored Placement Bluebook, Pitch Mails, and Brochure; compiling data of 50+ companies from 120+ students - Strategising corporate outreach and automating sector research using real-time web scraping & industry insights		
	Deputy Coord <i>May'24-May'25</i>	- Contributed to achieving 1300+ offers, from 500+ companies, resulting in an 85% placement rate for students - Established connections with 20+ companies, including JLL, GCC, Sobha, Aspect Ratio, Avalon, Bechtel, Digital		
COCURRICULAR & EXTRACURRICULAR ACTIVITIES				
Social Impact		Led a 5-member volunteer team under Swarnaina Training, raising ₹2,000+ for blind children by engaging parents		
Mentor	Siksha Prayas	Mentored Five students from rural Haryana through weekly calls, supporting their academic and personal growth		
	AMC^{22*}	Guided a 1st year student to pursue academic interests along with coping with academic and non-academic stress		
	Placement Buddy	Guided 20 final-year students throughout placements, assisting with resume reviews, test slots & query resolution		

* On-Going, 2 Simple Mail Transfer Protocol, 3 Random Forest, 4 One Hot Encoding 7 Receiver Operating Characteristic-Area Under the Curve, 8 Synthetic Minority Oversampling Technique, 9 Scientific Python, 10 t-distributed Stochastic Neighbor Embedding, 11 Python Reddit API Wrapper, 12 Financial Bidirectional Encoder Representations from Transformers, 13 Valence Aware Dictionary and sentiment Reasoner 14 Linear discriminant analysis, , 17 User Generated Content, 18 Dept of Management Studies, 19 serach engine optimisation, 22 Academic Mentor, 23 Entrepreneurship Cell, 24 Bhratheey Vidhyapeeth engineering college 25 Key performance indicator 26 Visual basic for applications
